Tree Cutting and Clearing

Poulsbo Municipal Code (PMC) Chapter 15.35 sets forth rules and regulations for tree removal, pruning, cutting, and clearing, establishes the procedures for issuance of permits, and provides for approval of plans, inspections, enforcement, and penalties. Find additional information on Tree Cutting and Clearing [here](#).

When required or determined necessary, the PED Director will consult with the City Arborist. All costs associated with review by the City Arborist shall be the responsibility of the property owner or applicant. A Tree Cutting and Clearing Permit shall be obtained from the City before commencing any activity for which a permit is required, unless specifically exempted in [PMC 15.35.070](#) (see [Tree Cutting and Clearing Request for Exemption](#)). Looking for an arborist to hire for your project? Check out <https://www.treesaregood.org/findanarborist>.

Class IV Forest Practices

The City of Poulsbo assumed jurisdiction over the review and approval of Class IV-General Forest Practices on January 1, 2020. Prior to this date, the Washington State Department of Natural Resources (DNR) was responsible for issuing this permit. A Class IV-General Forest Practices Permit is required when logging operation, which would otherwise be classified as a Class II or Class III Forest practice, occurs on land in an Urban Growth Area (UGA); or on land where an application for development has been or is being submitted. Examples include, but are not limited to, Building permit, Preliminary Plat, Short Plat, and Site Development permit for clearing. Find additional information on Class IV Forest Practices [here](#).
