

Join or Die Documentary Screening

Follow the half-century story of America's civic unraveling through the work of legendary social scientist Robert Putnam—and discover how joining clubs and community groups can help rebuild connection, trust and shared purpose.

Stay after the screening for an opportunity to connect with others to network and continue the conversation. Complimentary copies of *Bowling Alone*, the companion book to the film, and similar themed titles will be available while supplies last.

At 2pm on November 7 The City of Poulsbo will be hosting a follow up book discussion of *Bowling Alone* at City Hall.

Registration is encouraged for event planning purposes. See QR code:
